+ PROPER STOOL
FOR COMFORT AND
PRODUCTIVITY

EVERYTHING YOU NEED WITHIN 90° +
EASILY ACCESS YOUR WORKSTATION
AND REACH YOUR PATIENT FOR A
MORE EFFICIENT EXAMINATION
(NEVER TURN YOUR BACK TO THE PATIENT)

ACCESS TO CRITICAL +
MEDICAL SUPPLIES
(DROPS, SWABS, TISSUES)

EYEWEAR SAMPLES AND +
PRODUCT MESSAGING TO
PROMOTE OPTICAL SALES

IMMEDIATE ACCESS TO +
SCRUB HANDS PRIOR TO
PERFORMING EXAMS.

90° OF EFFICIENCY

The ORVOS exam systems are engineered with angled countertop cutouts that position the doctor within a 90° radius of critical controls while maintaining strong patient interaction. The 90° of efficiency increases the doctor to patient face time with direct access to chair and stand controls along with the patient's data.

- + Patient/doctor interaction advantage (never having to turn your back to patient)
- + Lowers muscle fatigue and neck strain moving from patient to computer and instruments.
- + Instant access to trial lenses that are now within arm's reach
- + SMART OFFICE - Critical supplies such as drops, tissues, swabs and gloves are at your fingertips.
- + Direct access to vital patient history (EMR)
- + Articulating computer arm enables you to share information with patient by simply sharing your monitor.

MORE EFFICIENT EXAM = MORE THROUGHPUT= INCREASED REVENUE

+ OPTICAL LAB KITS

Add increased functionality to your lab with Eye Designs' Optical Lab Kits. These intelligently designed wall mounted panels with tool holders, shelves, hooks and bins allow you to remove counter top clutter and organize your lab in style. The Optical Lab Kits are available in three different configurations.

GENERAL CABINETS

Eye Designs produces a large array of standard and custom cabinetry that easily outfits any optical lab, business office, break room or storage areas.

LAB KIT 1 FOR SMALL TOOLS

Kit includes 2 plastic panels, 1 16" small shelf, 2 clear small hanging bins, 2 clear large hanging bins, 2 pencil holders, 1 hammer holder, 2 large J hooks, 6 small pin hooks, 2 long J hooks, 1 16" multi-tool holder.

D235

LAB KIT 2 FOR SMALL PARTS STORAGE AND PAPER TOWELS

Kit includes 2 plastic panels, 1 hammer holder, 2 large J hooks, 6 small J hooks, 1 pencil holder, 10 small open bins, 10 large open bins, 1 16" small shelf with paper towel holder.

D236

LAB KIT 3 FOR FRAME STORAGE AND ORDERS

Kit includes 2 plastic panels,
20 XL open bins.

D237

LIGHTING

Keep your exam lane under the proper light. ORVOS offers an optional lighting package that features wireless remote dimmers and switches. The switches can be integrated into any of the exam lane systems, or can be controlled with a tabletop pedestal remote.

WIRELESS GENERAL LIGHTING SWITCH

WIRELESS DIMMABLE LIGHTING SWITCH

 EL - 103 with pedestal wireless remote

STOOLS

Ensure a perfect fit. No matter if you're seeing one patient or an entire day of them, your exam room stool is vital part of your daily routine. By making sure the stool addresses your particular needs, you will feel more productive, less fatigue, and comfortable throughout the day. ORVOS offers a series of ergonomically designed and engineered chairs that promote proper posture, allow proper adjustment and offer stability. Many options and configurations are available so be sure to explore all of the options to find your perfect fit.

Styles, materials and options vary by manufacturer. Please contact your ORVOS Consultant for more information.

STOOL WITH TABLET ARM

A 5 prong round stool on casters combined with a small tablet extension. Excellent for quick patient consultations and note taking.

CLASSIC EXAM STOOL

The standard in clinical form and function, these classic round 5 prong stools are extremely durable. The standard pneumatic height adjustment makes for easy repositioning. Optional backrests are available.

ERGONOMIC SADDLE

The contoured triangular cushion of the saddle stool promotes healthy posture and multiple sitting positions for extreme comfort. The saddle seat lowers pressure points for long term comfort and allows users to get closer to their work.

WEDGE

The triangular seat means you are not forced to adopt a 90° sitting angle, but are given the space to adopt a position where knees are lower than the hips. This “open hip” angle makes it easier to maintain good posture while working. The backrest is small and round, giving precise support to the lower back and ensuring maximum freedom of movement.

PROFESSIONAL SERVICES DISPLAY

WALL MOUNTED PANEL 28.75" w x 90" h

Includes 8 blank acrylic interchangeable graphic panels and 1 larger graphic panel for header. Ideal for listing services provided or brands offered.
